

We partner with our clients to deliver government financial solutions, which generate fair and equitable assessments, on-time tax bills, and collection/distribution of funds through the effective and efficient use of CAMA, Tax, and Financial software.

Seven reasons why XSoft Financials is your best choice:

1. Other vendors **DICTATE** your processes, but we **ACCOMMODATE** your processes directly into XSoft Financials.
2. Cloud-based software, which is easily accessible by multiple offices / agencies.
3. Seamless integration with XSoft Tax software saves hours of re-keying.
4. Workflow driven processes are initiated from the search screen.
5. Robust, stand alone cashbook module to manage tax collections, cash on hand, and advanced collections.
6. Ability to add “searchable” notes and attachments throughout the system greatly assists the user in locating information.
7. Internal report designer allows the user to generate a wide variety of standard reports and unlimited potential for custom reports at their discretion.

XSoft Financials is securely hosted in a Microsoft Azure® environment :

Log-in from anywhere

As a cloud-based application, XSoft Financials gives you access to data and tools when and where you need them.

Safe and secure

Housed in Azure, your critical financial data is protected through robust user security and redundant backups.

Improve efficiency

XSoft Financials is fully integrated with XSoft Tax, which reduces manual data entry, particularly with cash book related items.

Minimize paperwork

With built-in notes and attachments, document management tasks are greatly simplified

Centralize data

Through the use of SQL Azure, financial data is entered once and then used across the entire system.

Encourage broad adoption

An intuitive user interface reduces the learning curve and encourages wide spread adoption throughout the organization.
